DETAILED ACTION

Response to Amendment

1. The applicant's amendment has made the double patenting rejection no longer valid.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-7, 10-24 and 27-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent Number 6,606,661 to Agrawal et al. in view of U.S. Patent Number 6,389,028 to Bondarenko et al..

4. As to claims 1-7, 10-24, and 27-40, they are rejected for the same reasons presented in the previous office action.

5. Claims 8-9 and 25-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent Number 6,606,661 to Agrawal et al. in view of U.S. Patent Number 6,389,028 to Bondarenko et al. in view of U.S. Patent Number 6,011,537 to Slotznick.

6. As to claims 8-9 and 25-26, they are rejected for the same reasons presented in the previous office action.

Response to Arguments

Art Unit: 2142

7. Applicant's arguments filed 12/29/2004 have been fully considered but they are not persuasive. The applicant argues the following points: (a) Agrawal does not teach that a time period is specified, during which the client may access the resource; and (b) Nowhere does Bondarenko teach or suggest that a user that has missed or gone beyond the time period for accessing the scarce resource may be allowed to access the resource even though the desired maximum capacity has already been reached.

8. As to point (a), a position in the queue is an access slot. The period of time when a user gets to the head of the queue is the period of time when the scarce resource may be accessed.

9. As to point (b), Bondarenko does not explicitly say that a user has missed or gone beyond a time period; however, scenarios, as claimed, where a user has missed or gone beyond a time slot are taught by Bondarenko because such scenarios use the process as those for a new user.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2142

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
